LUXOR

MARGINEA®

Marginea Black Ceramics is unique in Europe, being at the same time a world-known brand. Due to its geographical position, Marginea commune is surrounded by forestes, its soil is argellaceous and it is crossed by the Sucevita river. All these features are fundamental for the craft born from the magical triangel of clay, water and fire.

Ceramica Neagra de Marginea este unica in Europa, fiind o marca binecunoscuta in intreaga lume. Prin natura amplasarii geografice comuna Marginea este inconjurata de paduri , dispune de un sol argilos si este strabatuta de apa raului Sucevita, acestea fiind conditii fundamentale pentru acest mestesug in care lutul, apa si focul formeaza un triunghi magic.
